## PRICE & TRANSPARENCY

Logistics and the need to follow specific safety procedures mean that we require a larger surface area to operate and a larger team than conventional restaurants, resulting in slightly higher prices than in a traditional restaurant. Our responsible approach and the high proportion of products from organic farming, in particular fruit and vegetables, also influence the prices we charge. Please note that the prices of our menus include the access to the experience (£15 /person)

To ensure accessibility, we offer a discount a 10% discount on each full menu to students.
